ATTENDEE WORKBOOK

Monday, September 14, 2026

The Statler

1914 Commerce Street, Dallas, TX 75201

Welcome

Welcome to We Run on EOS® North Texas. Today we come together as an EOS community — entrepreneurs, leadership teams, and the Implementers who serve them — to sharpen our tools, share what's working, and get better at running our businesses.

If you're running on EOS, this day is designed to make you stronger. World-class speakers. Practical workshops. Books you can actually use on Monday morning. And a room full of North Texas leaders who are on the same journey.

If you're just getting started, welcome. You picked a great day to see what happens when a whole community rallies around one operating system. Ask questions. Take notes. Introduce yourself to the person next to you.

A few suggestions to make the most of the day:

- Use this workbook. Every session has space for the ideas that hit you hardest.
- Talk to the sponsors. They're here because they believe in EOS and want to help you win.
- Introduce yourself to at least three people you don't know. Business is a team sport.
- Stick around for the Happy Hour. Some of the best conversations of the day happen there.

Here's to a great day — stronger teams, healthier companies, and clearer visions.

Let's get to work.

— *The North Texas EOS Implementer Community*

"Vision without traction is merely hallucination."

— Gino Wickman, Traction

MY NOTES • GET A GRIP ON YOUR BUSINESS WITH EOS

8:00 – 9:35 AM • Ann Sheu (Certified EOS Implementer)

"Do you have a grip on your business, or does your business have a grip on you?"

— Gino Wickman, Traction

1. Rate your grip on the business today, 1 to 10. What is the one thing that would move it a full point?
2. Of the Six Key Components (Vision, People, Data, Issues, Process, Traction), which is weakest in your company? What is that weakness costing you every month?
3. Where are you hitting the ceiling right now: the whole company, one department, or you personally?
4. What are you holding onto that you would have to let go of for the business to grow past you?

MY NOTES • JOURNEY WITH AN EOS IMPLEMENTER

9:50 – 10:40 AM • Brian Dosal (*Strety*)

"Let go of the vine."

— Gino Wickman, *Traction*

1. What has an Implementer, a peer, or this room already told you that you have not acted on? What is really stopping you?
2. Who on your leadership team is watching the journey instead of rowing? What conversation are you avoiding with them?
3. Twelve months from today, what will your team say is different about you, not just the company?
4. If you are self-implementing, where has “good enough” quietly become the standard?

ACTION:

My To Do from this session is: _____ Due Date: _____

MY NOTES • YOUR SALES TEAM ISN'T THE PROBLEM. YOUR SYSTEM IS.

10:55 – 11:55 AM • Steve Heroux (*The System of Selling*)

"Systemize the predictable so you can humanize the exceptional."

— Isadore Sharp, Founder of Four Seasons

1. If your top salesperson walked out today, how much of your sales process walks out with them?
2. Is your sales process documented, simplified, and followed by all? Or do you have as many sales processes as you have reps?
3. Which leading indicators sit on your sales Scorecard? Would they have warned you a quarter ago about this quarter's number?
4. Where does your pipeline leak: lead generation, qualifying, proposal, close, or the handoff to operations? Name the root cause, not the symptom.

ACTION:

My To Do from this session is: _____ Due Date: _____

MY NOTES • LUNCH AND LEARN: HEALTHY MATTERS

11:55 AM – 1:00 PM · Walt Brown (EOS Worldwide Head Coach)

"The single greatest advantage any company can achieve is organizational health."

— Patrick Lencioni, *The Advantage*

1. Walt's seven questions: Do I belong? Do I believe? Am I accountable? Am I measured? Am I heard? Am I developed? Am I balanced? Which one gets the weakest yes from your people today?
2. Is your leadership team healthy, or just polite? What Issue has been sitting on the list because nobody wants to enter the danger?
3. Are you running EOS for your people or to your people? How would they answer that?
4. Whose future is aligned with yours? Who on your team would you struggle to say that about?

MY NOTES • PROFIT POWER: STRONGER — OR JUST BIGGER? (continued)

"Everyone has a number."

— Gino Wickman, Traction

1. Without looking, write your five numbers: Revenue, Directly Variable Costs, Gross Profit, OPEX, Net Profit. Which one did you have to guess?
2. Of the 7 Power Moves, which one would your team call impossible? Is it impossible, or just uncomfortable?
3. If you raised prices 1% tomorrow, who would actually notice? What would it add to gross profit?
4. What is your First Move Monday, who owns it, and which Scorecard number turns red if it stalls?
